### Theory Of Colours Johann Wolfgang

#### **Theory of Colours - WordPress.com**

Theory of Colours (original German title Zur Farbenlehre) is a work by Johann Wolfgang von Goethe about the poet's views on the nature of colours and how these are perceived by humans, published in 1810. It contains some of the earliest published descriptions of phenomena such as coloured shadows, refraction, and chromatic aberration.

#### **COLOR PSYCHOLOGY - Peter Cullum**

COLOR THEORY - Psychology In the early 1800's Johann Wolfgang Goethe challenged Newton's ideas and created his own color system. Newton's studies in color had been scientifically based, while Goethe's interest was more in the psychological effects of color. He wished to investigate whether rules could govern the artistic use of color.
